

Honey, you remember our 450c?

Sunday Pictorial Review

SECTION OF THE
San Francisco Examiner
MAY 29, 1955

IN THIS touching scene from Paramount's VistaVision production *Strategic Air Command*, noted caricaturist Jacques Kapralik shows Jimmy Stewart embracing June Allyson, his movie wife, on his return from a simulated

global bombing mission. The motion picture reveals the heretofore secret story of our striking air force and its dramatic rehearsals for instantly retaliating against any aggressor nation by means of hydrogen and atomic bombs.
