

2 Tots Born In Truck

LEESBURG (Fla.). — For a second time Mrs. E. W. Kirk has delivered a baby, unaided, in the cab of a truck speeding toward a hospital.

She is back home with her newest child, Lonnie Calvin.

Mrs. Kirk called her husband and told him it was time to go to Durham Young Hospital at Leesburg. They started out, and as events became more urgent he drove at top speed.

His wife arrived at the hospital with young Lonnie in her arms. Mother and son were fine.

It happened the same way two years ago when her last child was born. That youngster and two other Kirk children rode in the back of the truck when the youngest brother was born.
