RFA CHINFSF RIIIDING IFT AIRFIF

fuge in these statements. It was pointed out that one of the first military axioms a young officer learns is that military plan-ning must be based on enemy capabilities, not enemy intentions, and that to try to guess the enemy intends what to do can lead to disaster.

In yiew of this, it was be-lived that the key to the presidential decision will not be what the Chinese Communists intend to do with Quemoy and Matsu if they capture them, but what they can do with them. PROBLEM WORKED ON.

That, according to Pentagon was the problem the reports, Joint Chiefs worked on today.

Dulles seemed to have made up his mind on Communist intentions. In his speech, read carefully and cleared by the he said "the Chinese its seem to be de-President, h. Communists termined to try to conquer Formosa."

Among reports which sup-port this conclusion was the one that the Red Chinese are building a number of jet airfields on the mainland w striking range of Form Lack of such field within striking range of Formosa. Lack of such fields in the past major weakness been a has in Red preparations for a Formosa Invasion

Chinese Nationalist O. K. Yui said Tuese unless the Chinese H prevented from co those fields Formosa under heavy air raid Premier Reds Tuesday completing mosa may be raids within six months.

AUTHORITY GIVEN.

fu Washington, it was point-In qu ed out that Congress has given President Eisenhower authority given th President Eisenhower authority to order United States air and Navy units into action to break er fc ti mainland concentrations ob up viously meant to su invasion of Formosa, support an cl that and fi these airfields could fall within that conceivably CI in that category pointed out tha ri It also was ne long mili that la

It also was points conferences the long military conferences Carney and Adm. Felix Stump, Carney and Adm. Felix Stump, of the n Formosa N cific Fleet, held in Formosa during and after the Dulles visit indicated the United States and Nationalist. China cific during and Nationalist Chin getting down to brass China were 1 tacks in h C

decision on whether or when to defend Quemoy and Matsu will rest on the use the Car VA rest on the use the Chinese Reds make of air power. This official suggested that the United States would not take action as long as the fighting was confined to artillery duels between the islands and the S f C tl b N mainland. But he said it C

But he said it might be that if the Reds attacked the islands from the air, the United States Fleet and Air Force might be ordered to step in. n (7
