task of heading the two Seventh-Day Adventist Hospitals in the Korean cities easier and more rewarding.

The Rues are also taking several tons of relief supplies for general distribution in Korea.

The comparative abundance of tools to fight disease and poverty were not always available to the fifty-five year old Oakland born physician, however.

When Doctor Rue, then twenty-six, took over a little mis-

er colors, despite the fact they and their co-workers had to leave the hospital twice when North Korean soldiers took over Seoul.

AIDED RHEE, U. S.

When the conflict sent 250,000 refugees to Pusan and Cheju Island, Doctor Rue helped set up hospital facilities there in cooperation with South Korean President Syngman Rhee and the United States State Department.

Some 3,500 babies were born in what Doctor Rue affectionately calls the "old barn" at Pusan, where the staff worked under the most primitive and difficult conditions. A new, modern fireproof hospital has now replaced the older facilities, he reports.

During their eleven month furlough in the United States, Doctor and Mrs. Rue personally expressed their appreciation to the many church groups who have supplied a steady stream of supplies for Korea.

These have helped greatly to improve health and economic conditions, despite movements of vast numbers of refugees, Doctor Rue believes.

He and Mrs. Rue are enthusiastic and anxious to get "home" to Korea where they will begin another seven year term of medical-missionary work to help others.

THE GRAY SICKNESS

Never sick enough to stay in bed yet never really well. The GRAY SICKNESS keeps millions pale, tired and weak... never able to enjoy life to the full!

*IRON deficiency anemia has been aptly called the GRAY SICKNESS. Not only because its victims have lost their once healthy color, but also because life itself has become gray and drab for them. For you simply can't enjoy work or play when you have to drag through day after weary day feeling tired, weak and listless. And sleep doesn't seem to refresh you for you wake up tired. The GRAY SICKNESS means your blood isn't getting enough iron. It becomes weak, thin, washed-out... just can't supply your body with the full supply of oxygen it needs for buoyant health and radiant color. Signs of the GRAY SICKNESS may be due to other causes so you should see your doctor regularly.

REBUILD STRENGTH FAST

Fortunately the GRAY SICKNESS responds quickly to proper treatment... and normal healthy color, strength and vigor return. In cases like this doctors usually prescribe an iron tonic containing many times your daily iron requirement. Each therapeutic dose, 6 tablets daily, of IRONIZED YEAST, contains 10 times your

daily iron need... and this iron is fortified with vitamin B₁. Now this iron goes right to work... within 24 hours... to start building rich red blood... the kind of blood that soon brings back your normal strength and energy... fills you with your old-time pep... brings healthy color back to your cheeks again.
