OCT 20 1944

17 Sept. 1944

Dear Wak -

I don't know if I owe you a letter or if you owe me one but as I'm probably the one who owes the letter, I'll write a few lines.

Since the last time I wrote to you, many things have happened. I finished Flight Engineer school on September 18 and went to work as an Instructor here.

The work is pretty easy and so far I like the job. I get a new group of students every ~~the~~ six days. We fly a problem every other day. On the days we don't fly, we work out a problem to fly on the next day. We fly 1100 miles on each trip. Sometimes we go to Texas, Montana, Nebraska or Iowa.

Dolous and Pat are here too. We have a small house near Louey. It's about ten blocks East of the end of the streetcar line on Caffery street. The place is almost like the house we had in Amarillo. I wish we could have you out to dinner like we did in Amarillo. We would even have a drink. How about that?

Pat has grown to be quite a young lady now. She runs all over the place

and talks a lot. you would be surprised to see how big she is now.

That's enough about me. What are you doing and where are you now? Write and tell me all about your work and where you have been and where you are now.

I had a letter from Jack Beckett the other day. He, Gene Mills, Beaman, and Dye are on an island somewhere out in the Pacific Ocean. That's all he could tell me. Stoud left here and went to Clovis New Mexico.

Do you know where Eddie Burns is or any of the other fellows? If you do let me know.

Well Wah, I guess I'd better close for now. (The other pen went dry) Write as soon as possible as I'm anxious to know where you are and all about you.

As ever,
your friend
Doug. McElligott

Shells there,

How are you? I wish you didn't stay in Denver so you could drop by and see us. We'd like to see you. Write us soon and tell us all about yourself.

Sincerely,
Dolores
