

\$160 Found in Mouse Hole

ELKIN (N. C.). — Curiosity paid off for 6 year old Janice Marshall.

While playing in a smoke-house at her home, she saw a mouse run into a hole in one of the logs. She gouged at the hole and uncovered a small tobacco sack containing some money but couldn't get the sack out.

Her father sawed the log in two and found \$160 in old currency. Marshall doesn't know how the money got there. He plans to redeem it and buy United States savings bonds in Janice's name.
