

350 TV Workers Laid Off in East

EDISON (N. J.), April 23.—
(AP)—Approximately 350 workers at the Westinghouse television assembly plant here were laid off yesterday, a union official announced today.

Louis Zimmer, president of Local 401, United Electrical Workers, CIO, which represents 2,100 employes at the plant, said the layoffs will cut production of television sets by one-third. The firings were due to "lessening of demands" for the company's product, he said.
