

Baby Found Crying At Mother's Body

ONEONTA (N. Y.), Nov. 8.—
(AP)—A 2 year old girl, sobbing
“mommie, mommie,” was found
patting the shoulder of her
mother's body in their home
here yesterday. The father's
body was found in another room.

An autopsy disclosed that Dr.
Walter S. Packer, 34, a poultry
researcher, and his wife, Mary
Louise, 31, had been asphyx-
iated. A pathologist said they
apparently had succumbed to
coal gas. The house had a coal
furnace. A coroner said little
Janet apparently had been in
her bedroom with the doors
closed during the night.
